

Create a Warming Patio Retreat

CREATING AN OUTDOOR SPACE that fits your style and your budget is what American Gas Log can do with its fully functional and beautiful outdoor fire pits and fire pit tables. Utilizing your finish choices, these custom-made units are tailored to fit YOUR outdoor style. Create a warm and relaxing mood for your outdoor living space while extending your outdoor season into chilly evenings and cooler temperature months.

**AMERICAN
GAS LOG**

Elegance Inspired by Nature

Whether you need extra warmth to take the chill out of the evening air or you want to create natural ambiance customized for your space, these beautiful and functional outdoor fire pits will fit your style at reasonable prices.

Base and top sizes shown are standard sizes — all fire pits can be custom sized.

All AMERICAN GAS LOG fire pits and fire pit tables are constructed of a fully-welded aluminum tube frame that is covered with quality cement board.

Finishing touches are completely customizable. Fire pits may burn natural-looking gas logs, tumbled glass or glass beads to fit your personal style. Finishing surfaces include granite or tile tops and stone, stucco or slate bases with all materials being suitable for outdoors. These pieces also may be purchased unfinished.

All burners and grates are made of the highest quality stainless steel and all of our outdoor gas fire pits are suitable for use with either natural gas or liquid propane. Limited warranty on gas burners.
