# Affordable Custom Outdoor Living

## CUSTOM OUTDOOR KITCHEN & GRILL ISLANDS

Patio Cuisine Elements by American Gas Log allows you to finish your outdoor living space at affordable prices with completely customizable kitchen and grill islands. These elegant outdoor islands may be customized to fit your space or certain standard sizes are available.

All PCE kitchen and grill islands are constructed of fully welded aluminum tubing, covered with cement-board and finished with a variety of finishes to fit your style. Finishing surfaces include granite or tile tops and stone, stucco or slate bases with all materials being suitable for outdoors. These pieces also may be purchased unfinished.

To complement your island, PCE also offers a line of outdoor kitchen luxury gas grills and grill accessories made of the highest quality, 304 stainless steel or these islands may be made to fit any grill manufacturer's specifications.

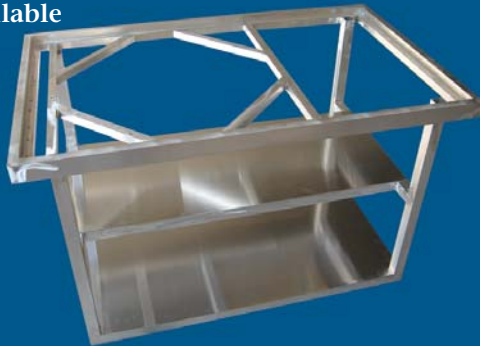

You can create the custom outdoor retreat you've been wanting at a price that will NOT take your breath away. Contact American Gas Log for further information regarding custom sizes and options.

## CUSTOM CERAMIC GRILL CARTS

Custom ceramic grill carts by Patio Cuisine Elements may be made to fit any ceramic grill manufacturer's specifications. These handsome grill carts provide plenty of space for grilling accessories and storage below.

Top surfaces may be finished with a durable outdoor composite wood or granite for a more luxurious look. All grill carts include four swivel -locking casters for easy movement and stability. A knock-down frame version also is available for easy shipping. Contact American Gas Log for further information regarding custom sizes and options.

PCE grill carts are constructed of fully welded, powder-coated aluminum tubing. The top surface (shown above) is finished with a composite wood top that requires little maintenance and resists the effects of variable weather conditions.

Shown to the right is an aluminum tube framed 48" x 100" height fireplace with a 36" stainless-steel firebox. These dramatic outdoor fireplaces are ready for your finishing touches.

## CUSTOM OUTDOOR FIREPLACES

Enjoy the warmth and natural beauty of a custom outdoor fireplace by American Gas Log that will fit your budget. These beautiful outdoor fireplaces will be the centerpiece of your outdoor retreat and are custom-made to your specifications.

Constructed of fully-welded, aluminum tubing, all fireplaces may be purchased frame only or frame covered with cement board. A stainless steel firebox that burns wood or gas is also available from American Gas Log.
